Tile Grout Ready to Use

Description

A smooth acrylic latex formula that stays bright white.

Application

Use to grout new tile or replace old and damaged grout. Resets ceramic fixtures and mosaic tiles.

Directions

Remove at least 1/8" of old grout. loose particles, dirt and soap scum from joints. Scrub well with kitchen cleaner if necessary. Rinse and wipe dry. All surfaces must be clean. Press TILE GROUT into joints with putty knife, finger or other clean tool. When grout has set slightly, clean away excess grout with damp cloth. Polish tile faces with dry cloth. TILE GROUT may be dry to the touch quickly. Bath and shower can be used after 24 hours. Complete curing may require two weeks or more. High humidity and/or low temperatures may increase the curing time.

To use TILE GROUT as a cement, spread a 1/8" thick layer on back of tile piece and press into place. TILE GROUT can be sealed, but wait two to three weeks before sealing. Clean tools with water. Replace lid tightly. Do not freeze. Close container after each use.
